13.3" Rugged Work-in Chromebook Case

TKC006

Overview

The Targus Chromebook Work-in Case provides nimble protection for students and business professionals alike. Hard, reinforced sides protect your device from everyday knocks and drops up to 30”. A microfiber lining safeguards against scratches and dust. The soft-touch handle offers grab and go portability, while the removable shoulder strap provides hands-free transport. There is also a roomy zippered pocket for power supplies and accessories.

The Targus Chromebook Work-in Case is engineered to Military Grade specifications and able to survive, along with your laptop/Chromebook, 26 drops onto concrete from a height of 4 feet. That is ultimate protection against daily bumps, knocks and major drops. The interior of the case is lined with soft microfiber for added impact protection and to help prevent scratches.
